# SCG PLATFORM RELEASE NOTES

Release r135 hotfix

## New features and changed features

- We improved our PD analyses; this will optimize our predictions and data.

## Bug

- 659931, [Portal] Circuit list sorting issue

  When you click on the Customer or Region column headers, the data in that column should be sorted. This did not work anymore. We have fixed that.

- Various security related issues
- Various efficiency improvements
